Pace Custom Fit CT 602 & 604 Plug Wire Sets

These plug wire sets are custom tailored for use with the Chevrolet Performance 602, 603 & 604 circle track engines. These custom length wires are designed to be routed behind the cylinder heads and under the headers. Wires are sleeved and numbered with cylinder designation on both distributor and spark plug ends. The wire is the new affordable, black Moroso Mag Tune 350 ohms of resistance per foot, premium race wire. The spark plug boots are all silicone with sure grip snap-lock terminals and are factory installed by Moroso.

GMP-104077 For small cap distributors with HEI-style terminals...**\$98.95**

GMP-257449 For HEI distributors ...**\$98.95**
