

2021 FRONT SUSPENSION BULLETIN (2/12/21)

Please note a correction has been made to the letter A rule under Front Suspension, which now reads as follows:

- A. All cars must utilize independent front coil spring suspension consisting of (1) one right and (1) one left lower control arm, (1) one right and (1) one left upper control arm, (1) right and (1) one left spindle, (1) one right and (1) left shock, and (1) one right and (1) one left spring.

As a reminder as stated in rule #3 under Springs, Stacked springs will not be permitted.
